Average Latency

4.17ms

Features

Features

High performance drive upgrade for desktop computers

- 7,200 RPM speed with 64MB data buffer deliver improved performance for your aging computers.

- Supports SATA 3.0 interface with up to 6 Gbit/sec transfer rate.

- Wide capacity range up to 3TB for your storage needs.

Native Command Queuing (NCQ) support

- Optimizes the order in which received read and write commands are executed, resulting in increased performance and reduced mechanical workload from the drive.

Data Protection Technology

- Ramp loading technology reduces wear to the recording head and media for improved drive reliability.

Built-in shock sensors detect impact, shielding adjacent track data.

Ideal for everyday computing needs
